Electric Foot Warmer

Warmth in all directions | Carefully designed

Enjoy a great experience of caring for your cold or tight feet with dynamic warmth flow in all directions!

Our feet to our body are what roots to the trees. When the roots are healthy, the trees grow vibrantly. According to traditional Chinese medicine, there are 6 main meridians in the feet connecting to the body. When your feet are warm, the warmth circulates to your entire body to loosen your tense muscles and keep you healthy.

Ergonomically designed, the foot warmer can be used with ease. Equipped with 4D DWF (Dynamic Warmth Flow) technology, the warmth flow surrounds your every toe, soles, and your entire feet.

4D DWF brings you 3 most important benefits :

- Better breathability
- Uniquely designed holes to provide 360 degrees warmth circulation
- Strands of warmth flow retain air moisture

4D DWF Technology
Brings you warmth dynamically

Electric Foot Warmer

Warmth in all directions | Carefully designed
